

## Syrinx Announces Microsoft SharePoint and .NET 2010 Webinar Series

*Live Events Include Workflows, Dashboards, Content Management, and InfoPath Forms*

**WALTHAM, Mass., December 21, 2009** — [Syrinx Consulting](#) Corporation, a process-driven IT consulting and software development firm, today announced its calendar of complimentary Webinars covering six popular aspects of [SharePoint](#) and [Microsoft .NET](#), including new functionality in Microsoft SharePoint 2010 and the .NET 4.0 release. Syrinx pre-scheduled monthly interactive Webinars, presented by Syrinx practice directors with more than 15 years of project management and development experience, include:

**“InfoPath Forms: Automating Common Business Problems”** Managing ASPX forms and their subsequent applications, e-mails, paper, and related requests, require unnecessary work. Using Forms Services and SharePoint can drastically reduce errors and time spent on repetitive tasks, saving time and money. This session reviews common business tasks that can be converted quickly into InfoPath forms, giving attendees ideas and clear steps for using technology to solve everyday problems.

- Thursday, February 25<sup>th</sup>
- Wednesday, September 22<sup>nd</sup>

**“How are You Performing?: The Power of [SharePoint Dashboards](#)”** — Introduces business intelligence (BI) dashboards and key performance indicators (KPIs) and discusses how these tools can be used to provide business insight at any enterprise level. The session covers real-life examples of ways SharePoint, with now-included Performance Point functionality, can serve as an effective business-reporting platform.

- Wednesday, March 24<sup>th</sup>
- Thursday, November 18<sup>th</sup>

**“SharePoint Workflows: Out-of-the-Box and Beyond”** — This popular event outlines how SharePoint workflows can be configured or built to manage common or complex business process automation. The presenter will discuss out-of-the-box workflows as well as when and how to create custom workflows using Visual Studio or SharePoint Designer.

- Wednesday, April 21<sup>st</sup>
- Thursday, August 19<sup>th</sup>
- Thursday, December 16<sup>th</sup>

**“SharePoint Content Management: External Sites and Intranets”** — Discusses new functionality in SharePoint that lets enterprises publish content from one area to another or cost-effectively manage multi-lingual delivery of content on multiple intranet, extranet and Internet sites. The presenter will also explore Master Pages and Page Layouts as reusable templates for a consistent look and feel.

- Wednesday, January 27<sup>th</sup>

- Wednesday, July 21<sup>st</sup>

**“Structured Authoring with Reusable Content and [Publishing in SharePoint](#)”** — Learn how to source, manage and publish structured and reusable manuals into SharePoint using third-party applications and custom development. Gain order and options for putting large sets of organizational or business documentation into SharePoint, to take full advantage of its capabilities.

- Thursday, May 20<sup>th</sup>

**“Benefits and Pitfalls of The .NET Entity Framework”** — The Microsoft .NET Entity Framework (EF) is a data access/object relational mapping technology introduced in .NET 3.5 SP1. It allows a developer to create CLR objects by pointing to a data source, or even create database objects from an entity model. The .NET 4.0 release includes key improvements to address state management issues, provide more development flexibility and ease working with EF across application tiers. The session will cover the benefits of EF, .NET 4.0 enhancements, how Linq to Entity can be used to access data, and how to address performance issues.

- Wednesday, June 16<sup>th</sup>
- Thursday, October 21<sup>st</sup>

Press or end-user organizations seeking to register for an upcoming complimentary Webinar can do so at: <https://www.clicktoattend.com/home.aspx>. Each live pre-scheduled Syrinx event will be posted and open for early registration approximately three months before the event date. Syrinx will also hold several joint partner Webinars, to be promoted and posted for registration throughout the year.
