**WALTHAM, Mass., August 25, 2008** — Inc. magazine today ranked Syrinx Consulting Corporation, a software development and consulting firm with expertise in Microsoft .NET and SharePoint Server 2007 technologies, No.876 on its annual ranking of the 5,000 fastest-growing private companies in the country. The Inc. 5000 list is the most comprehensive look at the most important segment of the economy – America’s independent-minded entrepreneurs.

"Syrinx, founded in 2003, has more than tripled the average growth for IT consulting in 2007 largely because of our reputation and track record of on-budget and on-time delivery," said Andrew Gelina, CEO of Syrinx. "Our clients in highly competitive and regulated markets like financial services and health care value the benefits of working with experienced developers on site. Many enlist our help to develop document management or interactive Web 2.0 solutions and soon engage us for additional work."

The Inc. 5000 named "IT Services and Software" and "Consulting" among the five fastest-growing business categories in 2008, with average growth of 187% and 182% respectively. Further, Inc. ranked IT Services the largest business category overall with 579 Inc. 5000 companies. Syrinx Consulting ranked No. 29 on Inc.'s 2008 list of the Top 100 Businesses in MA and NH, a region known for its concentration of high-technology companies. The honor underscores the relevance and success of Syrinx's business model amid heavy competition.

Inc. expanded its popular annual list of the 500 fastest-growing companies in the U.S. by tenfold to form the Inc. 5000. The 2008 Inc. 5000 list measures revenue growth from 2004 through 2007. To qualify, companies must be U.S.-based and privately held, for profit, independent – not subsidiaries or divisions of other companies – as of December 31, 2007, and have had at least \$200,000 in revenue in 2004, and at least \$2 million in 2007.
